

Let people answer simple questions for themselves

No need to ask HR for e.g. phone numbers

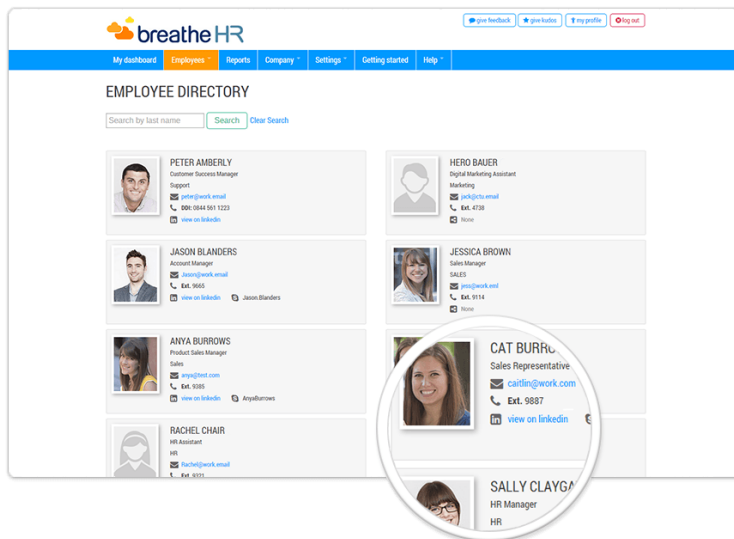

Your staff don't need to come asking HR for details like other people's phone numbers or company documents. A staff directory to keep everyone connected, breatheHR is the way forward for skyrocketing performance. Because breatheHR works on any device and is a secure web-based system, breatheHR is always just a fingertips reach away.

Employee Documents

Easily accessible. Privacy and sharing settings.

Have policies and procedures you need employees to read? Upload them quickly into breatheHR and keep track of who's read them. Our cloud HR software also safely stores employee documents in one place—whether it's a contract, job description, pay and bonuses, grievances, education, or ID documentation.

Employee Directory

Stay connected. Boost communication.

The company directory provides a quick and easy way to make calls, send emails and connect with fellow employees within a professional atmosphere on platforms like LinkedIn. By providing employees' business contact details, breatheHR helps teams contact and collaborate.
